

Dear Trinity Community,

March 13, 2020

It was just announced by Governor Inslee that the State of Washington, **including all public and private schools be closed to prevent further spreading of the COVID-19 Virus.**

Schools will be closed March 17 until at least April 24. During this unprecedented health crisis in our country, state, and schools have we faced such a great challenge. However, with our faith in God, and trust we put in our community we are confident that normality will return soon to our families, community, nation, world, and school.

The good news is we have put in place some procedures to stay in contact with our kids. Although, direct contact in a school setting provides optimal learning we can at least keep them learning in a limited capacity.

1. Each teacher will be asking their students to take home certain books and workbooks.
2. Each teacher will have the ability to assign kids work through their Sycamore and gmail accounts. Teachers will also be able to scan and email items to you for your child.
3. **Please have students check their accounts and parents must also stay informed through emails.**
4. Students enrolled in any of the SVL programs will need to continue to do their weekly work in these subjects. MobyMax, with every subject is also available. Teachers may also assign work from MobyMax, students in K-2 will still have access to Superkids.

We will be having a staff meeting immediately following school today and will provide more information to all families just as soon as possible.

As you know, all of the government recommendations are changing rapidly, so please check your email often and remember we are working as quickly as possible. Thank you for working with us to support the health and safety of the entire community. As always, we will partner with you and come out of this unprecedented situation as a strong Catholic School family.

God's peace be with you

Meeting notes March 13, 2020

3:15 PM

Conferences will occur be phone unless rescheduled.

Day in Motion Postponed not cancelled

Books went home what now?

Should we connect with parents weekly, daily, etc.

School supplies for kids

Bite togo?

School lunches?

Wait for CDC and Spokane Regional Health to guide us in regards to food programs

Svl-continue or go ahead
